

## EXPERIENCE

### Product Manager II, Zeta

Jun 2024 – Present

Led product across credit card charters at Zeta - driving AI-led automation, monetization experiments, and customer experience across 500k+ cards and 200k MAU

#### Growth & Monetization

- Defined targeting plan for portfolio-wide **credit limit increases (CLI)**, driving **spend uplift** impacting **~15% of MAU**
- Built a configurable credit limit increase framework to support **scalable monetization experiments & A/B tests**
- Conducted risk, redemption and unit **economics analysis** across 10 vendors, enabling gift card **rewards** for users

#### AI & Automation

- Drove **95% automated resolution** across Sparrow card repayment calls through **AI-led voice chatbot workflows**
- Executed intent analysis for Sparrow call transcripts using **LLM automation**, reducing support team **costs by 33%**

#### Product & Execution

- Directed **Sparrow credit card** charter serving **500k cards & 200k MAU** across cardholder & agent digital experiences
- Drove **end-to-end execution across 4 teams** to deliver a sleek & intuitive app to **10k+ users** of Starling credit card
- Designed onboarding journey unifying 5 third-party integrations including KYC and **open-banking vendors**, streamlining **acquisition funnel & reducing friction** to improve **conversion**
- Launched **tap & pay** and **push-to-wallet** features to improve transaction frequency across Sparrow cardholders
- Established lifecycle **notification & instrumentation architecture** with **100+ triggers** to enable product analytics

### Associate Product Manager, Media.net Software Services Ltd.

May 2023 – May 2024

Drove contextual ad targeting accuracy and advertiser revenue growth on a platform hosting 10k+ segments across 100+ advertisers

#### Platform & Optimization

- Responsible for optimization of ad targeting on a **contextual platform** hosting **10k+ segments** for **100+ advertisers**
- Achieved **92% ad targeting accuracy** for a **\$2.8B publisher** by identifying and curating 40+ custom ad segments
- Designed & executed **context strategy** to maximise impressions for 10+ advertisers with **\$1M+ annual budgets**

#### Growth & Revenue

- Conducted **A/B testing** on in-house DSP platform, improving **conversions by 15%** in contextual ad campaigns
- Built a dashboard to consolidate reporting of **200M impressions**, reducing **decision making time** for business stakeholders from **2 days to 30 minutes**

### Product Management Intern, Media.net Software Services Ltd.

Apr 2022 – Jun 2022

- Designed solution leveraging **~270B daily impressions** via Google Topics API & existing contextual targeting
- Created **UI/UX flow** to integrate audience targeting & IAB segments in ad campaign management for advertisers

### Software Engineer, Fidelity Business Services

Aug 2019 – Jun 2021

- Responsible for development, testing and enhancement of **5+ microservices** as part of the Fixed Income team
- Enhanced Fixed Income Desk **performance by 80%** via AWS migration and upgrade of Legacy Fund Allocation Engine
- Streamlined deployment across 8 squads **reducing effort by 50%** through automation of a reusable framework
